

MTHH035 and MTHH036 – Geometry Math Kit Materials

To complete the activities and assignments in *Geometry 1 and Geometry 2*, you will need certain items.

A math kit containing the * items is available for purchase, or you can acquire them on your own.

*1 compass

*1 protractor

*1 pad of graph paper (8.5 x 11 in. pad, 4 squares/inch)

*10 sheets of tracing paper

You will also need a basic **calculator** (one with addition, subtraction, multiplication, division, and square root functions, but no graphing functions).

You will need to obtain the following items for both Geometry 1 and Geometry 2

2 pencils

1 eraser

1 notebook (containing paper) or about 30 sheets of regular-sized scratch paper

1 straightedge (you can use a ruler or the straight edge of a protractor)

1 set of 12 colored pencils

Additional items needed for Geometry 1 include:

1 roll of transparent tape (cellophane tape)

1 scissors

12 toothpicks

2 sheets cardboard or poster board (8 in. x 10 in.)
